

Franci Hoxha

Full-Stack Software Developer

francihoxha@yahoo.com | +355 69 253 8842 | Tirana, Albania
[LinkedIn](#) | [portfolio-azure-nu-94.vercel.app](#)

Full-Stack Software Developer with practical experience building web, mobile, backend, and AI-enabled software. Strongest hands-on stack includes JavaScript, TypeScript, React, Next.js, Node.js APIs, MongoDB, Python, FastAPI, and Java, with experience in authentication/authorization, testing, debugging, deployment, and production hardening. Completed a Master of Science in Informatics Engineering in July 2026 and brings an earlier background in IT support, systems administration, and technical troubleshooting.

Education

- 2024 - 2026** **Master of Science in Informatics Engineering**
[European University of Tirana \(UET\), Tirana, Albania](#)
Completed July 2026.
- 2015 - 2017** **Master's Degree in Business Administration**
[Fan S. Noli University, Korçë, Albania](#)

Technical Skills

- Programming** JavaScript, TypeScript, Java, Python
- Frontend** React, Next.js, HTML, CSS, responsive interfaces, PWA
- Backend & Data** Node.js APIs, FastAPI, REST APIs, MongoDB, MySQL, SQL Server
- Engineering** Git, authentication/authorization, testing, debugging, deployment, production hardening, Vercel

Selected Projects

- 2025 - 2026** **Planify.al**
[Next.js, React, JavaScript/TypeScript, Node.js APIs, MongoDB, Vercel](#)
Designed and built a production-oriented multi-tenant booking and operations platform for service businesses. Worked across booking flows, customer/staff workflows, role-based access, notifications, localization, APIs, database-backed functionality, web/PWA/mobile experiences, testing, debugging, deployment, and production hardening.
[planify.al](#)
- BarberSpot.al**
[JavaScript, React, Node.js, MongoDB](#)
Developed a booking platform for barbershops with appointment scheduling, staff management, role-based access control, availability tracking, notifications, and business analytics.
[barberspot.al](#)
- Online Charging Station Management System**
Developed a system for booking and managing electric vehicle charging stations in Albania, including user management, reservation functionality, and database integration.

Professional Experience

2021 - 2025

Computer Technician & IT Support

- Provided technical support for medium-sized and large companies, resolving hardware, software, and system issues.
- Installed, configured, and maintained Windows, macOS, and Linux environments.
- Diagnosed performance issues and performed computer assembly, maintenance, upgrades, and component replacement.
- Managed backup, recovery, and system restoration processes to protect business data.
- Supported end users through structured troubleshooting and clear technical communication.

Selected Certifications

Jun 2026

Complete Software Engineering Course: Build Better Software

[Udemy - Yogesh Dahake](#)

Jun 2026

AI Coder: Complete Claude Code & Coding Agents Course

[Udemy - Ligency, Ed Donner](#)

May 2026

Succeed in the Age of AI

[Udemy - Dr. Angela Yu](#)
